# Personalized order processing solutions that work for you.

ALL IN ONE EASY TO USE DASHBOARD!

Owner's manual including step by step support of the operational process located on our web page. This is provided to assist with confusions and FAQ.

## INPUTS FROM THE TOP MARKETPLACES!

- SellerActive
- ShipStation®
- amazon.ca
- amazon seller central

## APPLICATION MANAGEMENT

The wide range of advantages provided by our APIs for clients and developers results more efficient and personalized data reporting from top applications. You can expect a personalized layout with the ability to customize the content you use the most. In the age of data sharing, more scope is available offering users the ability to distribute your content to newer or larger audiences.

At MediaBazaar we are targeted towards small and mid level merchants with limited staff who perform multiple organizational roles and typically purchase in small volumes, but offer a variety of inventory, Our working APIs pull data from sites such as SellerActive and ShipStation automatically to provide you with updated data.

## flexible reporting for your business needs

## DATA MAPPING

Using our website's geological data mapping features you may find critical context for your metrics. It's important to understand the distribution or presence of your organization across a city, state, country, or the world. Using our maps and its real time data, compare activity across several locations at a glance.
